RE: Lenz Oil Site
Lemont, Illinois

Dear Mr. Brasher:

Per your request, enclosed please find three copies of Addendum A, Light Non-Aqueous Phase Liquid Evaluation, Field Sampling Plan for the Lenz Oil Site, Revision 4, dated June 27, 1994. This version of the document has been prepared by: (1) deleting any overstricken text and any highlighting from the revised pages sent to you on June 9, 1994; (2) changing the date to June 27, 1994; and (3) changing the title of Section 3.0 to read "PIEZOMETER INSTALLATION AND SOIL SAMPLING."

ERM-North Central, Inc. has completed a review of the RI/FS Health and Safety Plan for the Lenz Oil Site. As a result, we have revised Page 2-2 by updating the emergency telephone numbers for the ambulance, fire department, and police department services. The overstricken text from the previous submittal, dated May 25, 1994, was not deleted because mobile telephones are unable to ring 911.

I have enclosed a copy of Revisions: 2 and 3 Page 2-2 for your review. If you have questions, please do not hesitate to call.

Very truly yours,

ERM-NORTH CENTRAL, INC.

Elsie F. Millano, Ph.D., P.E.
Senior Project Manager
